

# PERSONAL RESUME

## Profile

Name: Wang Weiwei  
Gender: male  
Nationality: China  
Date of Birth: 1992/6

Telephone: 15267037876  
Email: clayanddev@163.com  
Homepage: <http://clayandgithub.github.io>  
Blog: <http://blog.csdn.net/clayanddev>

## Education

Zhejiang University(Master)  
2015/9 - 2018/4  
*Institute of Artificial Intelligence*

Zhejiang University(Bachelor)  
2011/9 - 2015/6  
*Computer Science and Technology*

## Experience

**Enterprise:** Hangzhou Qunhe  
Cloud Computing Information  
Technology Co., Ltd.  
**Period:** 2014/6 - 2015/1  
**Role:** J2EE Engineer  
**Related Skills:** Java, Spring,  
SQL, MyBatis  
**Duties:**

- Design and development of some core modules
- Cache reconfiguration
- Database query optimization

**Enterprise:** Shanghai  
Droidhen Information  
Technology Co., Ltd.  
**Period:** 2015/2 - 2015/6  
**Role:** Game Development  
Engineer  
**Related Skills:** Cocos2d,  
C++, Android  
**Duties:**

- Design and development of a mobile game
- Algorithm design
- Program testing and performance tuning

**Enterprise:** Zhejiang  
University  
**Period:** 2015/9 - 2018/4  
**Role:** Team leader,  
J2EE Engineer  
**Related Skills:** Java, Spring,  
Hibernate, Python  
**Duties:**

- Led team to complete the development of two projects
- architecture design, schedule control, task arrangement, J2EE development

## Awards

- The runner-up of 2016 Alibaba Middleware Performance Challenge

## Skills

### ➤ Program Development

- Excellent in *Java*, have a preliminary grasp of *Python*, *C++* and *JavaScript*
- Good command of J2EE development, including *Spring*, *Hibernate*, *MyBatis*, etc.
- Familiar with many widely used *algorithms*, *data structures*, *design patterns*
- Have several practical experience in *Hadoop* and *Storm*

### ➤ Academic Research

- Capable of solving some classic *Natural Language Processing* problems, including *word segmentation*, *named entity recognition* and *sentiment analysis*
- Preliminary understanding of *deep learning*, familiar with the basic principle and implementation of classic neural network, including *RNN*, *CNN*

### ➤ English

- Got 538 points at College English Test-6(CET-6), a better listener than a talker
