PERSONAL RESUME

Basic Info

Name: Weiwei Wang
Gender: male
Nationality: China
Date of Birth: 1992/6

Telephone: 15267037876
Email: clayanddev@sina.com
Homepage: http://clayandgithub.github.io
Blog: http://blog.csdn.net/clayanddev

Education

Zhejiang University(Bachelor)
2011/9 – 2015/6
computer science and
Technology

Zhejiang University(Master)
2015/9 – 2018/4
Artificial Intelligence

Work Experience

Enterprise: Hangzhou Qunhe Cloud Computing Information Technology Co., Ltd.
Period: 2014/6 – 2015/1
Role: J2EE Engineer
Skills: Java, Spring, SQL, MyBatis
Duties:
- Design and development of some core modules
- Cache reconfiguration
- Database query optimization

Enterprise: Shanghai DroidHen Information Technology Co. Ltd.
Period: 2015/2 – 2015/6
Role: Game Development Engineer
Skills: Cocos2d, C++, Android
Duties:
- Design and development of a mobile game
- Algorithm design
- Program testing and performance tuning

Enterprise: Zhejiang University
Period: 2015/9 – 2018/4
Role: Team leader、J2EE Engineer
Skills: Java, Hibernate, Spring, Python
Duties:
- Lead the team to complete the development of two projects
- architecture design、schedule control、task arrangement、J2EE development

Awards

- The Runner-up of the Alibaba middleware performance challenge(2016)

Skills

➢ Program Development
- I am familiar with Java and SQL and I also know how to develop some simple programs using Python, C, C++, JavaScript
- I am familiar with J2EE development, including Spring、Hibernate、MyBatis etc.
- I am Familiar with some commonly used algorithms, data structures, design patterns, has a relatively good algorithm design capabilities

➢ Academic Research
- I can solve some Natural Language Processing problems, including Word segmentation, named entity recognition and emotion analysis
- I preliminarily grasp the principle of deep learning
